## CIGARETTES AND SCHOOLBOYS.

A committee of the Board of Education has been appointed to inquire into the cigarette evil in the public schools and suggest a way of suppressing it. We are glad that the Board has taken cognizance of a habit that is suppressing the mental, moral and physical strength of so many of our boys, and we wish it success in its efforts; but it can hardly hope to succeed without the earnest cooperation of the parents of the boys, and many of them are as ignorant of the danger of cigarette smoking as are the boys themselves. Dr. Clinton is the Chairman of the committee, and under his supervision, a concise and telling exposition of the dangers could be set forth, and sent to the parents of the boys who are found to be cigarette smokers. We think that that, in connection with disciplinary measures in the schools, might effect a considerable amount of good. It might be well also to give the boys a lecture upon cigarette smoking and its results. It would impress the sensible and ambitious among them. There is little or no excuse, except thoughtlessness—if that be one, or ignorance, for parents whose children smoke cigarettes. The hideous odor of the cigarette betrays the user of it every time, and very little watchfulness is needed to detect the boy who smokes.

In the matter of cigarettes, however, the School Department is in much the same position as it is with regard to morals and manners. If the admonitions of teachers have not the support of home influences they might almost as well remain ungiven.

The above is from the San Francisco Report. There are dozens of small boys in Carson addicted to the cigarette habit, and a good many older ones who ought to have more sense. There ought to be some steps taken here to prevent the use of cigarettes. About the only way to cure the habit is to beat the boy's head in with a base ball bat.

## A New Railroad.

Many exchanges comment on the advisability of building a railroad from some point in Western Nevada to Sacramento, making this State a competitive point. If this project be undertaken it would undoubtedly solve the question of transportation, as it is advised that the State build and equip such a road and run it in the interest of the State. Think of this idea, you men of business, think of our State leading not following. Write us in a good, plain hand your ideas on this subject and we will print what you have to say of a project which will further advance the financial condition of Nevada. Thoughtful people will not fail, but see that something must be done to keep such a promising state from falling into decay. This idea of giving all to the millionaires for the want of competition will never do. It is time to wake up and fight and discuss our rights on all things which pertain to make things livelier.

## About Boys.

Night-birds are proverbially foul, and darkness now, as always, is crime's best helper. What your boy hears on the street at night does not "go in one ear and out the other." Tar sticks closer than snow. He'll forget a dozen healthy things before he does one harmful one. A boy who spends his evenings on the streets is half-way ruined already; and before manhood's strength has come to him manhood's temptations are his familiar acquaintances.—Reveille.

There is a lot of good, sound sense in the above.

A Nevada man has perfected an invention for saving flour gold. At the Harmony mine, this State, he saved lately two ounces of amalgam daily and in 20 days saved 47 ounces.

The whole world is in a state of suspense. It isn't definitely known whether Corbett and Mitchell will meet or not.

Winter seems to have let go merely to get a fresh hold.
